

# CASE STUDY

## ABOUT MONEY HILL

Nestled in Abita Springs, Louisiana, Money Hill is a lifestyle community composed of a golf and country club, offering both simplicity and sophistication in a resort-like setting. They offer one of Louisiana's Top 10 golf courses, exceptional swimming, tennis and fitness facilities, as well as fine dining.

- Based In:** Louisiana
- Industry:** Country Club
- Employee Count:** 60+
- Previous Provider:** In-House

## LIFE BEFORE NETCHEX

Denise is the CFO and Controller for Money Hill's entities, managing the accounting, HR, accounts payable, billing, budget and more. Before her and her team switched to Netchex in 2009, they were performing everything in-house. With that much on her plate, Denise knew they needed to switch to an integrated, efficient solution that simplifies her job.

## WHY WE WERE (AND ARE) THE BEST SOLUTION

Denise chose Netchex because according to her, we offer a **“breadth of services, resources and application modules that are extremely varied and deep.”** When it comes to her favorite feature, it would be **Time and Attendance** because it's so intimately connected with Payroll. She states, **“the ease of managing time clock punches, employee event changes (new hires, terminations, etc), and the availability of outstanding, standard payroll reports are wonderful.”** With Netchex, you get access to multiple time collection options like customized web-based clock capabilities, timesheet entry for salaried staff or ethernet badge and biometric devices. Scheduling and labor cost management are crucial to running a business, and if mismanaged, can cost you money. Our system monitors excessive absences, overtime, unscheduled work and uses archived data to forecast labor costs so your business can save.

As the Controller and CFO, Denise is using Netchex daily, and will sometimes have to reach out to our service department for assistance. Ten years later, Denise still has nothing but praise for our support teams:

**“Customer service is extraordinary, and their team approach means that not only is someone always available to help you, but they're familiar with your business, exact needs, and PR/HR personnel. They are very professional and knowledgeable.”**

For Denise and Money Hill, these advantages in functionality and service are continuously what sets Netchex apart when choosing a human capital management provider and partner. In an industry as complex as Country Clubs, having accurate time and attendance, labor analytics and streamlined payroll processes are top priority, and Netchex makes that a reality.

**Netchex Services:**

- Time & Attendance
- Management Self-Service

- NetEnroll
- Pay Cards
