

Scheduler

Make employee scheduling work with your schedule, not the other way around. Netchex's Scheduler feature enables companies to build smarter work schedules and enhance the employee experience.

Create & Publish Employee Schedules

Managers can reduce the amount of time spent creating comprehensive, error-free schedules for all your employees across all departments. Leverage customizable features, intuitive rules, and automated alerts to build and publish comprehensive employee schedules.

User-Friendly Schedule Builder

Plan and build schedules easier thanks to scheduling suggestions based on specific job-based criteria, as well as drag and drop calendars, conflict warnings, and overtime tracking.

Employee Access & Requests

Allow employees to view their schedule, request changes, track PTO, swap or bid on shifts, and receive early, late, and missed shift alerts.

Mobile Optimized Experience

Built with today's on-the-go workforce in mind, Netchex's Scheduler is fully optimized for mobile devices for all users—administrators, managers, and employees.

Fully Integrated System

Seamlessly integrated with our Payroll and Time and Attendance solutions, Netchex's Scheduler feature creates effortless workforce management for your entire company.
