NETCHEX

TIME + ATTENDANCE

SOLUTION

Collect hours worked and create schedules effortlessly in a system that integrates directly with your payroll.

NETCHEX

YOUR
CHALLENGE

THE
SOLUTION

I have so many unique employee situations... I'm not sure I could use a timekeeping system.

`10:35`

Netchex offers any combination of swipe clocks, biometric clocks, a mobile app, mobile timesheet, tablet, PC, etc. to accommodate all kinds of different employees.

Our labor cost is out of control. We think we're doing great until the end of the pay period when we realize we have all of this unbudgeted overtime!

Use built-in alerts that can be sent to any employee for things like missed punches or approaching overtime.

We have employees that don't come to an office, but we need a good way to capture their hours.

Mobile apps and geofencing allow you to assign designated areas for employees to punch in/out so you can still capture hours and know employees are where they're supposed to be.

We have some unique requirements for our employees. In some instances, we need them to upload information or have multiple levels of approval.

Our timecards are flexible and allow multiple approvers, options for employees to add comments, upload information, etc. – all of which is tracked with a time and date stamp of who did it.

I have different PTO rules for different employees, but they can't see their balances or easily submit requests.

Our timecards allow for multiple PTO plans based on your rules and give employees access to see balances, submit requests, and automatically apply any rules.

TIME + ATTENDANCE

With customized clocks and effortless automation, it's time to add this to your HR tool kit. Contact us today to learn more.
