# Netchex

Time & Attendance

When you can't afford to lose another minute to obsolete timekeeping, Netchex gives you multiple options to collect accurate time from your employees and manage today's flexible workforce. Make smarter decisions regarding labor costs and scheduling in a system that integrates directly with payroll.

Error-Free Time Collection Options

Avoid the headaches and human error of antiquated timekeeping methods with Netchex's versatile, modern technology. Built for today's on-the-go workforce, our customizable web-based clocks, ethernet badges, and biometric devices help you manage labor costs and avoid costly time discrepancies.

Manage Schedules & Overtime

We know time is money, so Netchex helps you control scheduling and timeclock activity by monitoring excessive absences, overtime, and unscheduled work. Avoid excessive overtime and missed punches with customizable alerts to managers or HR admins.

Control Labor Costs

Flexible reporting tools allow you to forecast and manage labor expenses. Access real-time payroll expenditures to better understand labor costs. Configure labor rules based on your needs and use your archived data to report on and forecast overall costs.

Payroll Integration

Pay employees for the time they work—on time, every time. Eliminate delays and ensure accuracy with digital timesheets and one-click approval that automatically seamlessly syncs with payroll.
